

Dec. 14, 2017.

Dear _____

Did you know that around 85 million people around the world have been made homeless due to natural disaster and conflict? I strongly think that you should donate money to ShelterBox Canada so you can help those 85 million people in need.

Firstly, ShelterBox Canada is helping by giving needed items such as... tents, solar lights and water filters from the money that is donated. The tents are strong, safe and much better than living outside. I'm sure as builders you would love that. The water filters help give so many people clean water, and I bet that you would love that. ~~For~~ I mean everyone would right? My second reason is... imagine how those people felt

When they lost their homes. When their homes were destroyed, I bet that they felt very unlucky and scared. We all know that a house is more than just a roof, it's a home and a shelter. Finally, the needed items go to countries that have just been hit by very bad, life changing experiences. The homeless people use the items to live and survive until they can build a new home. The homeless children get something to keep them occupied too. They get small things like colouring books and crayons. I hope you make the right choice and donate money to the people in need.

Thank you for your time.

Sincerely,

Maya
